## THERMIC JAR RANGE

### DESCRIPTION

The Thermic jar range is ideal for oxygen sensitive food products such as fruit or vegetables to give your products a good shelf-life when stored under ambient conditions.

The Thermic ribs® and material structure of the jar have been specifically designed to allow the jars to withstand high temperature processing, even sterilisation.

This range is an exciting alternative to glass jars or tin cans which can be run down existing filling lines with minimal changes. They also offer advantages for your distribution chain with lower distribution costs and reduced transit breakages.

### FEATURES

- Multilayer PP/EVOH/PP structure for high oxygen barrier
- Good contact clarity and glossy surface finish
- Improved kitchen safety
- Can withstand hot-fill and pasteurisation and sterilisation processes up to 121°C
- Closures with induction heat seal (I.H.S) foils can be supplied ex-stock from RPC Corby. Please check for colours
- Containers comply with current food contact legislation
- Even more sizes in development... ask us for details

### PHYSICAL DATA

Ref	Brimful Volume	Dimensions (Height xDiameter)	Weight (Nominal)	Neck Size
500ml Thermic	526ml	130.0 x 79.5mm	30g	63mm
500ml Thermic Ultra	500ml	109.0 x 84.0mm	30g	80mm
720ml Thermic	730ml	130.9 x 94.0mm	38g	80mm
850ml Thermic	850ml	150.9 x 94.0mm	42g	80mm
982ml Thermic	982ml	201.0 x 90.5mm	55g	63mm
1000ml Thermic	1060ml	146.0 x 105.0mm	60g	100mm
2400ml Thermic	2370ml	201.5 x 140.0mm	98g	100mm
2400ml Thermic	2380ml	202.0 x 139.5mm	100g	89mm
3800ml Thermic	3850ml	232.5 x 164.5mm	160g	100mm
4250ml Thermic	4250ml	256.0 x 164.5mm	170g	100mm

Contact us now for sample containers. Full technical support is available, we are happy to assist with your filling trials and can provide and demonstrate portable induction sealing equipment.

## THE FOOD PACKAGING SPECIALISTS

### EXPERTISE

- An industry leader, blow moulding for over 50 years
- Detailed knowledge and understanding of the foodservice market
- Technological leadership in multilayer bottle production
- 360° technical support from initial concept designs and product development to filling processes and product performance
- Award-winning design team can provide innovative solutions to packaging challenges
- Internationally-recognised quality accreditations including ISO 9001:2008 and BRC /IoP Global Standard for Food Packaging

### CHOICE

- Extensive range of standard products from 180ml to 4.25L.
- Custom designs to enhance brand image, promote product differentiation and maximise on-shelf appeal
- Capable of using a wide range of closure systems available in the market
- Closure manufacture within the Group provides the opportunity for sourcing the complete pack from a single supplier
- Serving a comprehensive range of customers, from the larger European manufacturers of consumer products to small national businesses

### SUSTAINABILITY

- RPC is committed to creating and producing environmentally sustainable packaging solutions that help our customers reduce their carbon footprint
- Focussing on improving the design of product packaging to reduce the amount of material used whilst equalling or enhancing packaging performance
- At the same time we continue to seek ways to further reduce the environmental impact of our manufacturing operations through greater efficiencies and reduced electricity and water consumption
